

OBJECT 3

Specifications Sheet

MŪVEK

Expanding on its simple function, our tealight holder can be transformed into an oil burner by placing an ingeniously designed insert on its top. For an olfactory experience, dispense five to ten drops of oil into the well. The well for the oil is also useful for catching dripping candle wax, lending a third use to this multifaceted design.

CARE AND MAINTENANCE

The metal used for this product will oxidise with use, age and environment, resulting in the evolution of a natural patina. To keep the original bright finish of your product, we recommend occasional cleaning with Braso, applied to the surface with a soft and clean cloth.

Please allow 30 minutes for the metal to cool down before touching or cleaning the object after use.
