

OBJECT 4

Specifications Sheet

MŪVEK

An object of subdued beauty, our incense holder was designed to elevate the practice of burning Japanese incense. As opposed to non-Japanese incense, which includes a wooden core, incense sticks from Japan are crafted from pure rolled incense. Placed in the middle of the round object, the incense burns completely while the shallow well catches ash residue.

CARE AND MAINTENANCE

The metal used for this product will oxidise with use, age and environment, resulting in the evolution of a natural patina. To keep the original bright finish of your product, we recommend occasional cleaning with Braso, applied to the surface with a soft and clean cloth.
